Get the most out of your office documents with Cometdocs! Transform documents to... Recover deleted files on a Mac computer Deleting files from a Mac computer is one of the most common mistakes one can make. Every year, this problem affects a huge number of Mac users and it's one of the most painful ones. If you've made this mistake, you might think that your files have been deleted forever. However, thanks to OS X Recovery, we're here to help you bring back your Mac's lost files. It can even help you recover those files that you accidentally deleted from the Trash folder, even if you've emptied it. Recover files deleted from the Trash folder When you delete a file on a Mac, it's usually stored in the Trash folder. Deleting a file from this folder doesn't remove it from your computer's disk permanently. If you want to delete a file from your Mac, you need to empty the Trash first. This is a necessary step before you can recover deleted files. If you've emptied the Trash, the program is not able to access your computer. To access this feature, just follow these steps: Go to Applications → Utilities. Open the Terminal app. On the macOS menu bar, click on the trash can icon. Select Empty Trash. After emptying the Trash, you should be able to find any deleted file. If you've emptied the Trash, you should see a message stating that there's no files to recover. Restore deleted files on a Mac computer If you've accidentally deleted a file, we recommend you try OS X Recovery first. It might be able to restore deleted files on a Mac computer. This program is a Mac data recovery software which is able to recover your files in most cases. The only thing you need to do is to follow the instructions on the software's main window. Note: If your Mac is running on macOS 10.13 or above, then you need to click the Apple Logo and choose "Restore from Backup" first. Click on the Free Download button and install the software on your computer. In the next window, select the "Recover your files" option. When you restart your Mac computer, select the option that says "Recover" or "Recover from a Disk." After the process is finished, you'll be presented with a summary. If you're unable to find your file on the list, then continue with the process. Recover files on your Mac
