Mio Nasa TV

Mio Nasa TV is a free PC application that provides live coverage of Nasa Space Shuttle and Shuttle Orbiter mission launches, scheduled launches, anniversary missions, and anniversaries. As an added bonus, the application is also able to display many Nasa web pages in a split screen. Nasa TV live coverage Our goal was to provide the best possible TV coverage on video cassette recorder (VCR) or DVD. To do so, we had to use the lowest bandwidth possible to ensure that you receive the best quality video. This ensures that you will not have video "artifacts" -- the spacing and pixelation of the images. Nasa Television live coverage from space shuttle missions, a shuttle launch, the shuttle Discovery launch, Orion and Lunar Lander landings, the Curiosity Mars Rover landing, an orbiter mission anniversary, and many more. Mission schedules, mission and mission icon Mission and mission icon Missions are available in the schedule, with mission and launch times for each. You can select each mission according to the launch date. Mission name The name and logo of the mission is shown at the top of the screen. Mission schedule The first mission shown is the Space Shuttle mission scheduled for the next launch. Mission icon Mio Nasa TV shows the mission icon with the mission name. List of launches A list of all scheduled launches is shown. Launch countdown timer The countdown timer to the launch of each shuttle mission. The countdown from the current time in EST. Launch day countdown The countdown to the launch of each shuttle mission. Launch day The countdown to the launch of each shuttle mission. Mission launch The countdown to the launch of each shuttle mission. Mission status This is the current status of the mission. Actions Mio Nasa TV actions can be set to "Record Space Shuttle Launch", "Record Space Shuttle Landing" or "Activate Orbiter" at any time. Time Mio Nasa TV includes a time function so you can see your current local time from the schedule or watch the launch countdown. The launch countdown will be repeated at scheduled launch times. Mission mission listing The mission information listing includes each mission icon, mission name, mission mission, shuttle mission name, launch time, scheduled launch, launch countdown, orbital orientation, and mission status. Launch countdown countdown timer The countdown to the launch of each shuttle mission. Actions The countdown timer can be set to "Record Space

What's New in the?

Mio (pronounced "My-oh") is an award winning live video streaming application that gives you access to real-time streaming video of the US and NRC news media as well as education programming, video files, and more. Free versions of this application are available for Windows, Mac OS X and Linux operating systems. A full version of this application is available on the iTunes music store for your iPhone, iPod, and iPad. Other iPhone, iPod, and iPad applications that provide access to live NASA tv may use the same NasaTV server. I do not subscribe to streaming video on my computer. I download streaming video to my hard drive, so that I can view my downloaded video files on my computer. Mio Nasa TV by Mio, LLC is licensed as freeware for Windows, Mac OS X and Linux operating systems. A 30-day trial version of the software is available. Mio Nasa TV for Windows is not endorsed or authorized by the National Aeronautics and Space Administration. Mio Nasa TV site disclaimer: This is a one person project. Mio Nasa TV has received an award from Macworld and was chosen as an "App Daily" recommended App for February 2008. Mio Nasa TV was also chosen as an App from the Macworld App Directory as one of the top 10 apps for December 2008. Mio Nasa TV is the official NASA TV app for Apple iOS devices and is also available for Android and Symbian.
