
Waveshell Vst 8 0 Vstzip

September 6, 2014 - Reaper scans this VST directory to recognize wave plugins and . I am using REAPER v4.32/x64, Windows 8 and Waves Diamond 5.2 VST DXi . This works well when using .dxf files in VST mode. But REAPER does this very slowly if you are using a VST .vst file. This is very slow if you have multiple VST files and cannot use .vst. At the same time, VST mode for .vst files is all you need. Why is Reaper so slow? I do not know. I don't think it's software related because other plugins are also slow. Would it be hardware related? May be.
