
Novoline Magic Games Ii Europa Version Full __HOT__ For Pcrar

Ordered 2 different designs, both arrived within days of ordering, . .com/c/2M4xTLa7/24-novoline-magic-games-ii-europa-version-full-for-pcrar-jangio . The design with a deer came first, but it was a pity for the second design of money - with a deer. The deer design was better so I ordered it. The design came in a very high-quality package: a box made of thick cardboard, inside a pimply film, and on it the drawing itself. Nothing is wrinkled Very good and high quality printing, the colors are bright, the font is well printed. In general, very satisfied. As I said, the print quality is good, as is the design. I glued it on the glass and it came out exactly like the picture.
